PROFESSIONAL SUMMARY

Software Engineer with 1 year of experience in full-stack web development, gained both at an agency and through freelance projects. I build fast, modern websites with Astro, Tailwind CSS, and Motion animations, and develop REST APIs with Node.js and TypeScript. I work with version control (Git/GitHub), Vercel deployment, and the Scrum methodology, with a focus on mobile-first responsive design and leveraging AI tools to accelerate development.

PROFESSIONAL EXPERIENCE

Web Developer — Digital Marketing Agency

2025 – Present

Guadalajara, Mexico · Remote

- Built and launched multiple client websites across sectors such as medical-aesthetics, real estate, finance, and legal/medical (renascimedspa.com, senordelascasas.com, brokerlenders.com, carinjuryclinics.com).
- Developed front-ends with Astro, Tailwind CSS, and Motion animations, applying a mobile-first responsive design approach.
- Built REST APIs with Node.js and TypeScript for automated email delivery, state-by-state rate updates, and Utah home-price lookups.
- Optimized websites for SEO (Google and Bing) and integrated Google Analytics and the Google Places API (Place ID and reviews) to improve client visibility and reputation.
- Implemented marketing and lead-generation automations with GoHighLevel (GHL), Make, and Zapier, and supported campaigns through Google Business and Google Ads.

Freelance Web Developer

2024 – Present

Self-employed · Remote

- Designed and developed websites and landing pages for independent clients, handling the full process: design, front-end development, and production deployment.
- Managed version control with Git and GitHub, and deployed projects to Vercel using the command line (terminal).
- Organized work using the Scrum methodology, leveraging Trello for task and delivery management.

PROJECTS

Subscription Manager (iOS App) — *In development*

An iPhone app that helps you track the subscriptions you pay for, keep a balance of your spending, and view upcoming charges on a calendar.

Personal Portfolio — *andres-portfolio-coral.vercel.app*

Personal website built with Astro and Tailwind CSS showcasing my projects and APIs.
